

MOON LAKE ELECTRIC ASSOCIATION, INC.

Electric Service
Regulation No. 8

VIII - METERING

1. Installation

- A. The Consumer shall make provision for the connection of metering equipment at a convenient place, readily accessible without risk of bodily harm to Association employees, free from vibration, corrosive atmosphere, and abnormal temperatures, in which to install the Association's metering equipment and shall furnish a meter base for Association's meter. All meter locations and provisions for connecting metering equipment are subject to approval by the Association. The Association will furnish, install and maintain at its own expense the necessary meter or meters and accessories excepting meter bases, to measure the electric service used by the Consumer, The Consumer shall provide and maintain a satisfactory location for the installation without expense to the Association. The Consumer will not interfere with, or alter, or permit interference with or alteration of the Association's meter or other property; including cutting the seals without specific permission from the meter department of Moon Lake Electric Association.

2. Failure to Register

- A. If the Association's meter shall fail at any time to register accurately, the Association may estimate Consumer's Power and Energy during the time of such failure on the basis of the best available data. If any appliance or wiring connections are found on Consumer's premises which prevent the meter from accurately recording the total amount of Power and Energy used on the premises, the Association may at once remove such wiring or appliances and may estimate the Power and the amount of Energy consumed and not registered, as accurately as it is able to do so. The Consumer will immediately pay for such estimated Power and Energy consumption together with the expense of removing any such wiring or appliances and restoring the equipment of the Association to its normal operating condition. The Association may also refuse further service or require the Consumer to make such changes in his wiring installation as the Association deems proper.
- B. Meter Tests and Adjustments Association will test and inspect its meters from time to time and maintain their accuracy of registration in accordance with generally accepted practices and the rules and standards established by the Regulatory Commissions. The Association will make special tests when requested by the Consumer. If any such special test shows the average registration of a meter to be in error by more than 2% fast or slow the Association will bear the cost of test. If the amount of error is less than 2% the Consumer shall bear the cost of test unless the meter has not been tested at the Consumer's request within a twelve (12) month period immediately preceding such request. When an average error of more than 2% is determined, the Association will make a refund where the meter is fast and the Consumer shall pay the difference where the meter is slow. The billing adjustment shall be made according to the provisions of Regulation No. 11, Adjustment of Error.
